I was appointed to serve as the *Student member and again as the Resident/Fellow member* of the AMA's Council on Legislation. Our primary responsibility is to review all health care related legislation at both the state and federal levels, and to provide recommendations for action to the AMA's Board of Trustees.

- **American Medical Association (AMA) – Government Relations Advocacy Fellow** 7/2012 – 7/2013  
Each year, the American Medical Association (AMA) *selects one medical student* to move to Washington DC for their Government Relations Advocacy Fellowship (GRAF). The GRAF collaborates with the Legislative and Advocacy arms of the AMA, as well as members of Congress and the Presidential Administration. In addition to my work in DC *spear-heading a national [www.SaveGME.org](http://www.SaveGME.org) campaign and organizing a [national Medical Student Advocacy Day on Capitol Hill](#) (attended by 400 students)* among other projects, *I traveled the country presenting to AMA members on important policy issues and speaking on behalf of the AMA at events such as the Consumer Financial Protection Bureau's National Field Hearing on Student Debt.* I took a one-year leave of absence from school to pursue this opportunity.
